E. HART.

QUAIN'S ANATOMICAL PLATES.
CAREY & HART, Philadelphia, have in press, a series of *Anatomical Plates*, with references and philosophical comments, illustrating the structure of the different parts of the human body. Edited by **JONES QUAIN, M. D.** Member of the Senate of the University of London, and **W. J. ERASMUS WILSON,** Lecturer on Anatomy and Physiology at the Middlesex Hospital. with Notes and Additions by **JOSEPH PANCOAST, M. D.** Professor of Anatomy in the Jefferson Medical College of Philadelphia, Surgeon to the Philadelphia Hospital, &c. &c.
The plates are to be accompanied by letter press, containing detailed references to the various objects delineated. But with a view to render them intelligible to a greater number of persons, a running commentary on each plate is given, stating in general terms, and devoted as far as can be, of all technicality, the uses and purposes which the different objects serve in the animal economy. The work consists of the following divisions:
The Muscles of the Human Body, Fifty-one Plates.
The vessels of the Human Body, Fifty Plates.
The nerves of the Human Body, Thirty-eight Plates.
The viscera of the Human Body, Including the organs of DIGESTION, RESPIRATION, SECRETION AND EXCRETION, Thirty-two Plates.
The Bones and Ligaments, Numerous Plates.

TERMS OF PUBLICATION.—This work will be completed in one splendid Royal Quarto Volume of 450 to 500 pages of Letter Press Description, and about two hundred splendidly ENGRAVED PLATES, many of which will contain several Figures, and will be executed with the greatest accuracy, under the supervision of Professor PANCOAST. The price, neatly bound in Full Cloth and Lettered, will be Fifteen Dollars a copy, payable on delivery. Non subscribers \$25, (price of the London Edition, \$120,) in current Philadelphia funds.
Even in these days of cheap literature, no

work has been offered to the Public on such moderate terms, and it is only by an extremely large sale that the publishers can hope to be repaid for their great expenditure.
Although the publishers deem any further remarks unnecessary, they cannot refrain from requesting the gentlemen of the Medical Profession to compare the work, both as to price and style of execution, with any other that has appeared in this country, feeling assured that such comparison will prove the truth of their remark, that it is the *cheapest work ever offered to the American Public.*
The publishers annex copies of a few letters of recommendation—showing the esteem in which *QUAIN'S Anatomical Plates* are held by the Medical Faculty in Philadelphia.

RECOMMENDATIONS.
Philadelphia, Feb'y 16, 1842.
Gentlemen:—The Anatomical Plates of Quain, are the best that have been issued of late years from the English press. They present to the student great facilities in acquiring a knowledge of the human structure.
The plates of the American edition appear to me to be as well and as correctly executed as those of the original work.
SAMUEL JACKSON,
Prof. of the Institutes of Medicine in the University of Pennsylvania.
To Messrs. Carey & Hart.

Spruce Street, Feb'y 16, 1842.
Gentlemen:—In reply to your note of yesterday, requesting my opinion of the series of Anatomical Plates of Dr. Quain and Mr. Wilson, I am glad to be able to state, that it is, in my opinion, the most splendid work of the kind that has appeared. Its authors are practised and excellent anatomists, and not less informed in the various relations which that important department bears to medical science in general. The plates, in the original, are faithful representations of the human frame as exposed on dissection, and are beautifully delineated.
Such a work, executed throughout with the same care as the lithographic plates which you exhibited to me, and under the supervision of so able an anatomist as Prof. Pancoast, I should esteem a cheap and most valuable addition to our stock of anatomical works; and cannot doubt, that it would be eagerly sought after by the student; as well as by the practitioner, to refresh his memory on important occasions.
I am, gentlemen, respectfully yours,
ROBLEY DUNGLISON,
Prof. of the Institutes of Medicine, &c., in Jefferson Medical College.
To Messrs. Carey & Hart.

Philadelphia, Feb'y 18, 1842.
Gentlemen:—I have just received your note requesting my opinion as to the merits of the series of "Anatomical Plates" by Jones Quain, M. D., a reprint of which you have engaged in. It affords me much pleasure to state, that from a close examination of this work, I am induced to consider it the best of its class that has appeared, and most cordially recommend it to the medical student.
With regard, yours, &c.,
THOMAS D. MUTTER,
Prof. of Surgery in the Jefferson Medical College.
To Messrs. Carey & Hart.

Walnut Street, Feb'y 16, 1842.
Gentlemen:—The coloured anatomical plates, published by Jones Quain, M. D., Professor of Anatomy in the University of London, are as accurate in all their delineations as they are splendid in their execution.
I consider them the most valuable work, upon the subjects they portray, ever offered to the medical profession, and the testimony of my private students is strong in their favor. They say if, after the demonstration of the professor of anatomy, there remains any doubt upon their minds as to the precise location or structure of any organ, it is immediately removed by a view of Quain's Plates.
The only objection to the work is the expense of it, costing, as it does upwards of one hundred dollars which I understand you intend to remove, by offering it at a reduced price.
You have my best wishes for the success of this enterprise; as I am persuaded, that if you can reduce the expense of this work as low as you anticipate, you will become a benefactor to our profession.
Very sincerely and faithfully yours,
WM. HARRIS.
To Messrs. Carey & Hart.

Philadelphia, Feb'y 17, 1842.
Gentlemen:—Quain's Anatomical Plates, so complete and accurate as they are, would on this ground alone be strongly recommended to the medical student and practitioner; to the former as a guide, to the latter as a remembrance of details which are too soon forgotten, and yet a knowledge of which is often of vital importance. When it is added to these claims on our notice, that the American edition of this work which you are bringing out in a style of artistic execution superior even as far as relates to the engraving, to the English Edition, and at a price one-eighth of that of the original, we may readily suppose that your liberal expenditure on this occasion will be met by a large and ready sale of these truly beautiful plates.
JOHN BELL,
Lecturer on the Institutes of Medicine and Medical Jurisprudence.
To Messrs. Carey & Hart.

Specimens of the above mentioned work may be seen at E. HART'S, Boonville, who is prepared to receive subscriptions.
Boonville, Aug. 13th, 1842.

NEW PROSPECTUS OF THE Boston Notion, THE FOLIO AND QUARTO EDITION. Important Improvements Proposed.
ON the ninth day of October will be published the first number of a new volume of the *Boston Notion*, which will at that time be considerably enlarged, and in every respect improved. It will thereafter be printed with new type of the most modern cut and beautiful finish, on paper of as fine a quality as is used in any newspaper establishment in this country, and by a press manufactured expressly for the purpose, at the celebrated foundry of R. Hoe & Co., New York, in which will be embraced all the most recent improvements in that machine, enabling the printer to give perfect impressions and an undeviating register.

THE BOSTON NOTION is a weekly gazette of original and selected literature and intelligence. It embraces Tales, Poems, Essays, Reviews of New Works, Biographical, Historical and Humorous Sketches, Anecdotes, &c. &c., selected from the widest range of British and American current and periodical literature. There is no literary periodical in the English language worthy of regard, which the editors do not receive, and select from as frequently as the character of the articles indicates to be proper.

THE ORIGINAL DEPARTMENT of the *Boston Notion*, besides the contributions of the editor, will, as heretofore, embrace from time to time contributions from Professor Longfellow, author of "Hyperion," "Voices of the Night," &c.; Rev. John Pierpont, author of "Airs of Palestine," &c.; Henry William Herbert, Esq., author of "Crownwell," "The Brothers," &c.; William Gilmore Simms, Esq., author of "Guy Rivers," "Southern Passages and Pictures," &c.; Hon. Caleb Cushing, M. C., author of "Reminiscences of Spain," &c.; Henry T. Tucker, Esq., author of "The Italian Sketch Book," &c.; and many more of the most distinguished authors now living. No weekly gazette, and but few monthly or quarterly periodicals, have ever possessed a list of more distinguished or able contributors than the *Boston Notion*. Those above mentioned have each been for many months among its writers. A new feature of the next volume will be the publication of a new romance, written expressly for it, by HENRY WILLIAM HERBERT, Esq., entitled

THE MAID'S REVENGE.
Critics who have examined the MS. of this work, think it the masterpiece of its author. By the first critical journals of Great Britain, Mr. HERBERT is pronounced equal to any historical novelist except Sir Walter Scott, who has written in the English language. The purchase of original works of this description, and the publication of the next volume of the *Boston Notion*, and the next volume of the *Notion* will also contain a

NEW NOVEL BY BULWER.
The first romance writer of the age. The splendid productions of this great author have hitherto been almost inaccessible to those who reside in small towns and in the country. In this paper they will obtain his works, for about one tenth of the price demanded for them by the booksellers. Another feature of the *Notion* will be the publication of

ORIGINAL DISCOURSES by the most eminent divines. Among those who have hitherto contributed to this department of the *Notion*, may be mentioned Rev. JOHN FIERPONT, Rev. S. E. LORRIN, Rev. E. H. CHURCH, and others. The most important new romances published in England will be re-published in the *Notion* immediately after their reception in this country. Heretofore the works of DICKENS, MARRYAT, COCKTON and AINSWORTH, printed in this gazette, would have cost four times as much as the entire subscription of the paper, if purchased separately from the book stores. This will continue to be as rich in this department as in previous years.

COSTLY WOOD ENGRAVINGS, imported from Europe, or designed by JOHNSON and other eminent artists expressly for the work, will continue to illustrate and embellish its pages. As a gazette of literary, dramatic, commercial, political and general INTELLIGENCE, the *Notion* will be inferior to no periodical now or ever published in America. The folio edition, after the ninth day of October, will contain four pages of ten columns each.

THE QUARTO EDITION, of which the first number will be published on the 9th of October, will be sold on the same terms as the folio edition. It will be printed on a very large sheet, of the finest quality, and each number will embrace sixteen pages, of five columns each. The quarto edition will contain every article which appears in the folio edition for the same week, and at the end of each year from its commencement will constitute a splendid quarto volume of eight hundred and thirty-two pages, with an index and an elegant title page. Certainly so large a work, embracing an equal amount and variety of subjects, so great excellence, was never yet issued for so small a price as THREE DOLLARS. The Quarto will not embrace the novels now in course of publication in the Folio, but will contain all the new works before alluded to.

CONDITIONS.
The Price of the Folio Edition will remain as now. Subscribers to that edition will not be allowed to transfer existing subscriptions to the new form, as such a course would be productive of much confusion and inconvenience in the publishing department. As, indeed, as the *Notion* now being printed in the folio edition, *Old St. Paul's* and *George St. George Julian*, will not be continued in this Quarto, it is presumed that but few will wish to change from one to the other; though it is expected that many will obtain both editions. Those who intend to subscribe for the Quarto are requested to send in their names before the first of October, as it is intended to limit the edition to the probable extent of the demand.
Price of Folio and Quarto Editions: One copy a year, Three Dollars; Two copies, Five Dollars; Four copies, Ten Dollars; Six copies, Fifteen Dollars; Nine copies, Twenty Dollars. All remittances must be post-paid or free, and the inevitable rule of the office is to discontinue every subscription at the expiration of the time paid for, unless previously renewed by a further payment in advance. No subscription received without advance payment.

GEORGE ROBERTS, Publisher and Proprietor.
Boston, September, 1841.

PROSPECTUS OF THE YOUNG PEOPLE'S BOOK OR MAGAZINE OF USEFUL AND ENTERTAINING KNOWLEDGE.
There are many periodical publications, yet one more is wanted. The friends of Education—the advocates of the diffusion of Useful Knowledge—have long desired to see the commencement of

A MONTHLY MAGAZINE Devoted to the Instruction and Entertainment of Young Persons of Both Sexes; CONDUCTED WITH A VIEW TO THEIR IMPROVEMENT, IN LITERATURE, SCIENCE, AND THE CONDUCT OF LIFE. written, not in the colloquial language which is addressed to very young children, but with such attention to the style as shall render it worthy the notice of those who are acquiring the art of Composition or forming their literary tastes; and filled with such various original and valuable matter as shall render the volumes when bound up, worthy a place in the Family or School Library.

It is the purpose of the proprietor of *THE YOUNG PEOPLE'S BOOK* to furnish such a Magazine. He has provided ample means for the accomplishment of his object; and he pledges himself to the friends of liberal and judicious education throughout the United States that he will produce a work which shall be in every respect worthy of their attention and patronage.

There is a period in the progress from early childhood to maturity, and that by no means a short one, during which the expanding minds of the young are seeking in every direction for Useful Knowledge, as well as Intellectual Entertainment. Every book, paper or pamphlet which promises either is eagerly read, and every circle to society of a literary or scientific cast is earnestly sought. During this period the young person is not satisfied with that kind of instruction which is given to mere children. Something more elevated—something nearer the sublime and serious of active life is required. A friend always at hand who could point out the proper studies to be pursued, the true methods of development in Literature and Science, the best course of Reading, the surest process of Investigation, the most recent authorities in Experimental, and the most learned in Historical research—a friend who could relieve the dryness of abstract truth by a familiar anecdote, narrative or illustration—who could scatter a few roses of literature in the rugged paths of severe science, would indeed be invaluable.

Such a friend not one Youth in a thousand, of either sex, can have. There is no tolerable substitute to be found in any book—we might say in any library. It is proposed in some measure to supply the want of such a friend in the *YOUNG PEOPLE'S BOOK.*

One of the leading objects of the work will be to point out and illustrate by practical examples the proper method of Self-Instruction in the various departments of Literature and Art, to suggest appropriate departments of study and inquiry, to prescribe courses of reading, and to indicate the progress which may be made in the Science, so far as the limits of time and talent will allow.

The forms into which the different branches of instruction and entertainment will be thrown, will be regulated by the particular object in view at the time, and the class of readers always addressed. Essays, Narratives, Anecdotes, Tales, Historical Reminiscences and Sketches, Critiques, &c. &c.

Travels, Biographical Notes and Poems, Will all in turn become the vehicles of intellectual development and entertainment. The aid of the *Arts of Painting and Engraving* will be invoked, and every subject susceptible of graphic illustration will be accompanied by

WELL EXECUTED PICTURES. Arrangements have been made for receiving, and the publisher is now in the actual receipt of periodical publications of a similar design with that of *THE YOUNG PEOPLE'S BOOK*, from France, Germany and other parts of the continent of Europe. From these publications, and from the choicest parts of foreign educational literature in its various departments, translations will be made of such articles as will serve to promote the main design of the work—the instruction and entertainment of American youth. The preservation, however, of

A TRULY NATIONAL SPIRIT. The inculcation of the duties which every American youth owes to his country, and the exhibition of the capabilities of our

EARLY HISTORY, OUR TRADITIONS, OUR CUSTOMS AND SCENERY For supplying all the materials of a copious and brilliant literature, will be constant objects of attention, and will form frequent topics of discussion, example, and illustration.

In order to insure the competent execution of each department of the work, the aid of experienced writers, already favorably known to the public, has been secured, and the editorial care of the whole is committed to

JOHN FOSTER, A. M., Professor of Belles Lettres of the High School of Philadelphia, whose reputation as a practical teacher, and writer in the departments of education and polite literature, will form a sufficient guarantee, not only for the elegant and tasteful execution of the work, so far as language, style, and embellishment are concerned, but for its elevated moral and intellectual character, and for its invariable direction towards the improvement of its youthful readers in science, literature and the conduct of life.

THE YOUNG PEOPLE'S BOOK Will be published in Monthly Numbers, each to contain 36 pages embellished with

NUMEROUS ENGRAVINGS, And neatly done up in an Ornamental Cover. It will be printed on the finest paper of the best quality, in elegant and durable type, cast expressly for it. The form will be such as to make the volumes, when completed, a handsome addition to the shelves of the library. The first number was issued on the first day of September, 1841.

New York Weekly Tribune.
PROSPECTUS.
The Publishers of *THE NEW YORK TRIBUNE*, encouraged by the generous patronage and hearty approval which has been extended to their Daily paper since its establishment, and which has already rendered it the second in point of circulation in the city, will publish, on and after Saturday next, a *Weekly* edition, on a sheet of mammoth size, excluding all matter of local or transitory interest, and calculated mainly for country circulation.

THE TRIBUNE—whether in its Daily or Weekly edition—will be what its name imports—an unflinching supporter of the People's Rights and Interests, in stern hostility to the errors of superficial theorists, the influences of unjust or imperfect legislation, and the schemes and sophistries of self-seeking demagogues. It will strenuously advocate the Protection of American Industry against the grasping and to us blighting policy of European Governments, and the unequal competition which they force upon us, as also against the present depressing system of State Prison Labor; it will advocate the restoration of a sound and uniform National Currency; and urge a direct but determined prosecution of Internal Improvement. The Retrenchment, wherever practicable, of Government Expenditures and of Executive Patronage, will be zealously urged. In short, this paper will faithfully maintain and earnestly advocate the Principles and Measures which the People approved in devolving on Whig Statesmen the conduct of their Government.

But a small portion, however, of its columns will be devoted to purely Political discussions. The proceedings of Congress will be carefully recorded; the Foreign and Domestic Intelligence early and lucidly presented; and whatever shall appear calculated to promote Morality, maintain Social Order, extend the blessings of Education, or in any way subvert the great cause of Human Progress to ultimate Virtue, Liberty and Happiness, will find a place in our columns.

THE WEEKLY TRIBUNE will be published every Saturday morning in Quarto form on a very large imperial sheet, (31 by 42 inches,) and afforeed to Subscribers at TWO DOLLARS a year. Six copies will be forwarded a year for Ten Dollars, Ten copies for Fifteen Dollars, and any larger number in the latter proportion. Payment in advance will be invariably required, and the paper stopped whenever the term of such payment expires. Subscriptions are solicited by

GODEY'S LADY'S BOOK Edited by Mrs. S. J. HALE, & Mrs. L. H. SIGOURNEY, MORTON McMICHAEL & L. A. GODEY. Each number embellished with Splendid Steel and Mezzotint Engravings, Fashion Plates, Music, &c. &c. The July number of this popular and elegant periodical will commence a new volume, and the publisher takes this opportunity to assure the public that he will remit no effort to keep it, where it is now acknowledged to be, at the very head of American periodicals. No expense has been spared, and none will be, to make its embellishments of the most splendid description, and in proof of what he has accomplished in this respect, the publisher refers to the series of brilliant engravings, both line and mezzotint, which he has recently given; while in regard to the future, he thinks it sufficient to say, that he has now ready for publication numerous plates, even surpassing in beauty and interest those which he has already issued. These will be given in the course of the coming volume.

As to the Literary Department of the *LADY'S BOOK*, the publisher pledges himself, that it shall continue to merit the superiority which has been awarded to it already. Nearly every American writer of eminence contributes to its pages occasionally, and in each number, besides articles from the Editors, there are contributions from *Mrs. Sedgwick*, *Miss Leslie*, *N. P. Willis* and *T. Arthur*, a combination of talent which cannot be found elsewhere.

The *Lady's Book* is published monthly at \$3 per annum, payable in advance. Address, L. A. GODEY, Publishers' Hall, 101 Chestnut St. Philadelphia.
